Dear, Friends

4/27/20

My name is Luciano Acevedo JR. I am an inmate at San Quentin State Prison. First and foremost I want to thank everyone at Prison University Project, all friends in the community connected to the University Project and our very own new warden Ron Broomfield for supporting all us inmates at working to keep attention focused on conditions inside these walls and for sending us the packages. Its a wonderful feeling knowing we are not alone and forgotten in here. I just want the community to know prison staff is continually doing everything it possibly can to prevent the spread of COVID-19 aside from being confined to our cells 24 hours a day seperated from the rest of population we were recently given our own bottle of hand sanitizer

2)

and face masks which we are required to wear anytime we come out our cell. We are also allowed yard time twice a week for 4 hours, so frankly I'm feeling pretty comfortable with how officials are dealing with the pandemic. My only argument is I feel we are not receiving enough hand soap & toilet paper. Along with that we are only limited to only 2 showers per week even then the time frame we are allowed to thoroughly clean ourselves sometimes some of us are not able to get into shower before time expires. So I would like to have more frequent access to showers especially right after we are brought in after yard time, it's more crucial because we are all out there interacting together without a proper shower.

3)

afterwards. Well I dont want to take to much more of your time just let me finish this letter off with a few requests I would like to be able make my time count while incarcerated and ask Prison University Project to help me sign up for college courses; its OK for Prison University Project share this letter in their wesite or email messages to our community. And if anyone from the community willing to write me personally and keep me informed on the latest news on whats going on in the outside world seeing as I have no means of access to a newspaper or tv they can write me at Luciano Acevedo JR CDCR#BL8230 San Quentin State Prison, San Quentin, Ca 94974

Sincerely & Respectfully,  
Luciano Acevedo JR
