

5-2-20

Thank you for your thoughts,
and concerns and the good package
A way free civilians can help
us is, if its possible oversee those
who are older, been rehabilitating
themselves through their incarceration,
find ways to release them. Look
at this thing called mass incarceration
in California, have maybe a board
Panel ~~see~~ oversee local officials
honesty and purity of their
arrest. Possible way to help reduce ^{mass} incarceration
Is there there a better way
to correct some situation's beside
detaining and incarcerating.
Maybe this could help prison
overflow.

Thank you Prison University
Project for your and people's
concern and help.

Derrick Gray.
