Dear Jody Lewen,

I am writing to say thank you to the entire Prison University Project, college staff, teachers and friends for the personal gift I received from you. I dare say all the prisoners are grateful for your kind and generous gift.

I have been thinking about parole, as many prisoners continue to worry. Especially the older prisoners over 60 in age with more than 25 years incarcerated are prone to feel. When is enough, enough. You may share my letter.

Sincerely,

Robert Patrick Karer, D-41415
