^{*}Big, ^{*}Big Respects to The Prison Project.

“Of course please share my letter! Thank you!”

Jody Lewen, First & Foremost God Bless you all at Prison Project & all those across the Nation facing this Health Crisis. I would like speak not only for myself, but I know my fiance would appreciate what the Prison Project provided for me & others today. For my fiance Johna works in a Hospital to help the ill. TO Prison Project & Warden Ron Broomfield, I can not speak others but myself. Johna most sincerely Thank you for the beautiful & thoughtful Bag of Gifts, I've been in & out of San Quentin since the 90s and never have I seen such troubling times, I was in the Prison documentary in West block - Lock Up San Quentin 2002! Again I have never witnessed such panic! I'm 65 on May 22nd an elderly man with no real health issues other than mental, the no visitation and no contact with family is not fair yet God is our only answer! its really not about me: PL 7045, I know God can cure all - so I'm in constant prayer for my Queen Johna, my son Chris, my daughter-in-law Liz, and my precious grandson Noah & all the American people everywhere! Prison Project again my deepest appreciation for the Bab to all you, American & my fellow inmates! God Bless & Pray, pray, pray! Sojourner League
