Hey.. How are you? My name is Isaiah. The reason why I'm reaching out to you is to just express my gratitude, appreciation, and thanks for the gift that you sent me & the rest of the prison population.

I really appreciate the work that all of you do, inside & outside of the walls. I hope to one day pay it back in some form & assist the overall mission & vision of the program.

Personally, the lockdown or modified program has been pretty smooth. The confinement has given me large chunks of time to dedicate study to subjects that I wish to deepen my knowledge & mastery of; Spanish, economics, & computer coding.

In terms of my thoughts or ideas on ways people on the outside can be of help. Well, for those

of us who are spending this time studying and looking for creative ways to apply (retain) what we're learning, I would say maybe provide a platform for research request.

For example, I'm currently trying to assimilate what I'm learning about economics so that I can write a paper that explains what all of us can expect to see happen in the economy over the next 12-24 months. For instance, info about the debt market or a quarterly GDP Report could help provide current statistical data for that paper.

In the meantime, I send my positive thoughts & energy to everyone @ PUP. Stay safe, Stay healthy, & Stay inspired!

p.s. yeah, feel free to share this letter ;)
