First and foremost, I want to thank you, thank you for thinking about us, and going even further caring enough to send us all a care package (most of us have never received a package from so-called friends or family). If I could have only recorded the sounds of joy coming from the men in here, during these dark times of COVID-19, was remarkable. To receive something needed, and wanted tangible really shined a little light in the hearts of men that sometimes feel forgotten, abandon, fearfull, anxiety, and at times helplessness. This humane act generated hope, a little help and courage. Because it told us that somebody out there do care and is thinking

about us even at times
well tell ourselves the
opposite. So thanks again
we appreciate you all.

Sincerely,

p.s. It is okay to share
this letter.

It would be great if the warden
to allow an outside agency to
clean the over head HVAC system
gun rails, and window seals
on cat walk as Folsom prison
does. It looks like it snowed
on them leaving a quarter
inch of pure dust. when HVAC
is turned on everyone gets sick
and sinus flares its really bad.
none of this stuff is good for
the lungs.
