Dear PUP,

I hope all is well in the organization - with the staff, volunteers, supporters, friends, etc.

I'm well. After nearly 24 years of social isolation and shelter in place, I've mastered the science of doing time. What used to be new decades ago is normal today.

That said, I am writing to thank you, and those mentioned above, for the care package. It was thoughtful and appreciated by me and many of the men in West Block, even if some neglect to write and state it.

Disappeared but not forgotten gives us more hope than Edmund Dantes (Count of Monte Cristo) had. Thanks for all you do. I'll see you in the coming months, 'Cause I'm a student for life. Sincerely, 

P.S. You may publish this letter if you like.
