Greeting Jody Lawen,

I want to thank you, The prison university project and The MIT. Tamalpais College staff, Teachers, and friends for taking the time to bless me and the others with such a wonderful gift. What a great Blessing.

I want to say with the information you enclosed with your gift was amazing and it gave me a lot of relief from worry and stress about the coronavirus.

I'm sending the information to my wife and asking her to pass it on to our Church Congregation.

I'm not going to make this letter long for I know the work you and the rest are doing is a blessing and is very important. Everyone should be very glad there are people like you in this world today.

I've been in prison 15 years and also have been trying to help others. I'm in the process of doing drawings for a book my pastor wrote. I finish one book drawings by Bro. Grace Salamy it was published. It's called (Pastor Henry saying) and I'm working on another now.

I know God going to bless you and the organization I'll be praying for your health and success.

God Bless you all

William R. Smith

P.S I'm sending you 2 stamps back to you so someone else can use them I have plenty.

Thank you for everything else.

Note

You do what ever you want with this letter

it's not much of a letter I just thank you for your work
